

Summary Sheet to Jeff D Settlement 2015 06 12

Purpose of the agreement is to direct and govern the development and implementation of a sustainable, accessible, comprehensive and coordinated service delivery system for publicly funded community based mental health services to children and youth with serious emotional disturbances (SED) in Idaho. Class Members are Idaho residents with a SED. SED is defined as a person under 18 with a DSM diagnosable mental health condition AND a substantial functional impact that is measured and documented by a standardized instrument.

Agreement will be developed in three phases (projected timeline in parentheses):

- 1) Development of implementation plan (9 months)
- 2) Execution of implementation plan (4 years)
- 3) Sustained performance and compliance (3 years)

Child & Adolescent Needs and Strengths (CANS) will be part of assessment and is the standardized instrument for measuring functional impairment.

Care planning will occur through a child and Family Team (CFT), the CFT is responsible for development and monitoring of the individualized treatment plan.

Qualification for intensive services will be through either a qualifying CANS score or:

- substantial risk of out of home placement due to mental health needs;
- 3 or more foster care placements within 24 months due to mental health needs;
- is involved in multiple child serving systems related to mental health needs;
- is under 12 and has been hospitalized due to mental health needs within the last 6 months;
- has experienced more than one hospitalization due to mental health needs within the last 12 months; or,
- currently in an out of home placement due to mental health needs and could be discharged to home/community within up to 90 days if adequate supports were available.

Access Model – Appendix A (Pages 39-43) / Principles of Care and Practice Model – Appendix B (Pages 44-49) / List of Services and Supports – Appendix C (Pages 50-57)

Assessment and Treatment Planning

- Initial Assessment
- Evaluation and Testing
- Treatment Planning (CFT Formulation, Crisis Planning, Transition Planning)

Case Management & Intensive Care Coordination (ICC)

- Case Management
- Intensive Care Coordination – single point of contact/accountability

Treatment Services & Support Services (Direct Service)

- Medication Management
- Psychotherapy
- Skills Building
- Behavioral/Therapeutic Aide Services
- Day Treatment
- Intensive Home and Community Based Services
- Therapeutic after-school and summer programs

- Integrated substance use disorder services

Residential Based Treatment Services

- Treatment Foster Care
- Residential Care

Support Services

- Respite
- Transportation
- Psychoeducation and Training
- Family Support
- Youth Support
- Case Consultation
- Flexible Funds

Crisis Response Services

- Crisis Respite
- Crisis Response Services
- Crisis Intervention Services
- Inpatient
